5 COLOUR ADVANCE WARNING VARIABLE MESSAGE TRAILER UNIT

- ◆ Solar powered - 2 x 120 Watt
- ◆ GPS tracking – Remote access from home or on the road
- ◆ Trailer Mounted with removable draw bar for theft prevention
- ◆ Raise & Lower: Electric Mast
- ◆ Cloud-based remote programming
- ◆ Touchscreen hand controller
- ◆ Amber or Colour
- ◆ Passive Cooling (no fans)
- ◆ Unique point to point internal wiring
- ◆ Average power consumption only 50w
- ◆ Warranty 2 years (12mths on hand controller)
- ◆ Simple and easy to operate, the VMS boards can be programmed using a smart phone, laptop or desktop PC.
- ◆ Manage single or multiple signs using advanced software by remote access which can be easily set up through your own server to avoid ongoing charges.
- ◆ Fully integrated with superior control functions and charging systems, enabling these to be operated remotely.
- ◆ This design avoids the potential risk of faults through complex wiring and reduces the chance of breakdowns due to the board having less failure points.
