The Traffic Signs fluted poles are extruded from 6061T6, a strong structural marine grade aluminium, finished with a white powder coating, making them maintenance free and ideal for coastal areas.

Our fluted poles are lightweight and easy to handle making transportation easy. Our standard sizing to accommodate the fitting of all brackets and sockets available on the market.

We can also custom length sockets to suit your requirements.

For pole and socket sizes refer below.

Aluminium Fluted Pole sizes available:

60mm - 1.5m, 3m, 3.5m, 4m, 5m
